Jackson Co sees decrease in COVID cases

(KNZA)--89 active cases of COVID-19 are being reported in Jackson County.

That's according to information released Wednesday by the Jackson County Office of Northeast Kansas Multi-County Health.

That's down from 145 active cases reported on September 2.

Since the pandemic began, Jackson County has seen 1,797 total positive coronavirus cases, 56 hospitalizations and 18 virus-related deaths.

Jackson County continues to see an increase in those vaccinated, with the Health Department reporting 54 percent of eligible residents have now been fully vaccinated.
