Boil advisory rescinded for Nemaha Co RWD #3

**( KMZA)--The Kansas Department of Health and Environment has rescinded a boil water advisory for Nemaha County Rural Water District #3.**

**The advisory was issued August 7 for customers three miles north and one mile south of Highway 36 between Seneca and Baileyville—including the community of Baileyville.**

**The advisory was issued because of a line break resulting in a loss of pressure in the system. Failure to maintain adequate pressure may result in a loss of chlorine residuals and bacterial contamination.**

**KDHE in a release Sunday that laboratory testing samples collected from the Nemaha County Rural Water District #3 indicate no evidence of contamination and all other conditions that placed the system at risk of contamination are deemed to be resolved.**
