USD 339 Finalize SWOT Goals

Jefferson County North schools have their focus goals for the next two years set in stone.

They were finalized at Monday night's USD 339 school board meeting in Winchester.

According to school Superintendent Denise Jennings, the schools will continue to budget and operate the school district through sound fiscal practices.

The will also look to maintain a flexible, relevant curriculum that meets the needs of the students in a changing world.

The school aims to continue the enhancement of services, facilities, and technology while maintaining high quality and continue to value strong community support for their programs and schools.
