

Jail inmate earns prison in 2022 beating

(KAIR)--A 41-year-old Leavenworth County inmate, who punched and kicked a fellow inmate, was sentenced in Leavenworth County District Court this week to 2-years-8-months in prison.

According to a release from the office of Leavenworth County Attorney Todd Thompson, Emanuel Robinson learned his fate Wednesday as the judge sentenced him for the crime of aggravated battery.

The 32-month sentence will be served by Robinson consecutive to all prior cases.

According to court documents cited in the release, Robinson, in late October, 2022, "battered his victim by using his feet and his fist," with the release explaining that "following the incident, the victim was transported to a Kansas City area hospital for treatment."

During the investigation, one witness reported that Robinson and the victim had been discussing a movie before Robinson struck the victim.
