Atchison Public Schools to Discuss Capital Outlay Plan

Atchison's USD 409 school board will begin preliminary discussion on their capital outlay plan and summer maintenance schedule at this month's regular meeting.

The board will meet Monday evening at seven at the board of education community room.

They will also continue their discussion on the proposed bond election, looking at construction manager models and appoint an architect.

The board will also discuss administrator, director and coordinator contracts for the 2012-13 school year.

A student will also come to the board with an early graduation request.
